This is a near top of the range Sony 55inch TV. It is only 2 years old. Superb picture and elegant design with shallow wedge shape profile. it is full HD and 3D with good sound system. Comes with two pairs of 3D glasses, remote and instructions etc. Decided it was a bit big for my room, and have downsized. Films and wildlife programs look spectacular. Had it wall mounted, but comes with two really good quality and unobtrusive chunky silver feet. Works perfectly and bought from John Lewis. Check out the photos. It is pretty heavy , so will take two people to carry it. was over £800.
