

Big Chicken shedhen house coop perfect for avian flu regime (150 GBP)

Location **South West, Wiltshire**
<https://www.freeadsz.co.uk/x-509642-z>

This is a big, solid chicken shed with vents, perches, a variety of pop holes and 6 nesting boxes. Shed divides in half with a sliding door so you can keep the hens in one side and all your sundries in the other. Standing height, length 372cm, width 250cm (over overhangs a little more). Really substantial, glass panes etc, proper job. We inherited the chicken shed with our house and as we only have 3 hens it is definite overkill. But: very dusty and cobwebby, may need a clean/spruce up as is the nature of these things. No idea how it will dismantle and move- that will be up to you. But a lot of shed if you want a lot of chickens!

Collection.
