16 month old female, we've had her since she was 8 weeks old, she's been good with our 8 year old all the time and never any problems on walks meeting other dogs, always bee friendly.
Selling due to unforeseen ill health in the family and not enough time for her, she is still pulling on walks so needs a bit of training up still again due to not having enough time for her recently.
Health wise she's up to date with all her vaccinations and just had her boosters, we've got her card here. She's microchipped so that will need transferring, she's not needed to go to the vets for anything else, currently she's 31kg.
She loves having cuddles in the evening next to you. We are happy to give you all the supplies we have here for her, toys, treats, leads, balls for garden, bed, food, bowls etc, she will come with more than you need for a while, (except she'll need a food shop) **FOREVER HOME ONLY NO**
