ARGUS A & B cameras, 1930s Argus 'A' with one small chip in the base that has not penetrated through the body. Argus 'B'. No chips or cracks. As 'A' but with superior lens & shutter. History states a 1000 or less were made prior to WW2, which has to make this undamaged camera a very rare item. It is missing its internal paper serial number. An American offered \$150 for the 'B' if I sent it before any payment! Stated price is for both.
