

## **Acoustic Screens**

Location **South East, Oxfordshire** https://www.freeadsz.co.uk/x-510399-z

We manufactured Acoustic Screens with high-quality materials and sound absorbing solution and help absorb the sound being reflected around the area of work. Shush Screen creates an acoustic shadow which could be described as the closer and higher the screen is the source of the sound, the greater the sound will be absorbed and reflected the nearest working.
