Honda CBR929 rr1 I have owned this bike since June 2002 with 1 previous owner. Mileage 8984 Has only ever used on dry days throughout the summer months hence the low miles. Meticulously well maintained and extremely reliable. Hasn't been used in the last few years. Genuine reason for sale. The wife now wants to go touring and this one isn't pillion friendly for high miles. Always kept in dry storage. Will be sold with a full years MOT Has a couple of extras that can be seen in the pictures but other than that is completely standard. You will not find a cleaner example with the low miles as this one!! Contact number is 07719952514 077199525...(click to reveal full phone)
