I am selling this for my partner so the item is located in Shirley. Beech/birch (not sure which) double door tv cabinet. Glass doors with pearl type glass so not clear glass. There is a removable shelf on each side of the cabinet which has loads of storage. It will hold around 600 dvds inside. The cabinet is around 18 months old, maybe slightly less. Two new handles have been put on as the original ones were very small for the size of the cabinet. Cash on.
