

# Four African Pygmy Dormice (100 GBP)

Location **London, London**  
<https://www.freeadsz.co.uk/x-510654-z>

Four African Pygmy Dormice - very cute and lively. All eating well. They come with complete set up including glass house (in photo), ornaments, food bowls, water and nectar bottles, bedding and a range of food. They are approximately 14 months old. I am afraid I am not sure what sex they are - but they have not breed since we have had them (about 11 months) so am guessing they may all be the same.
