Welcome to Provectus, Jersey's Pioneering Home and Commercial Technology Company and smart installation specialists. Our team of expert technologists, designers and installation engineers are specialised in finding the right home automation or smart home and business solutions to reflect your personal requirements and budget. Home Automation Home automation will revolutionise the way you interact with your smart home. Daily routines can be scheduled to occur at specific times or dates, whether you want the lights to turn on in the morning, or imitate your daily habits while you are away. AV Distribution Provectus is staffed by a group of professionals with many years of AV experience. Each of our technicians are experts in their field, and bring knowledge to support AV product dealers in all aspects of residential and commercial AV distribution. Provectus only uses state-of-the-art technology so you can be assured of our technical know-how when support is required. Custom Built Cinemas From the utmost in top of the range and up to the minute home cinema systems to TV and Smart TV installations, Provectus has the solution and expertise to ensure you can watch your favourite films and programmes on the best set up available. No ugly cabling, or clutter; just sleek and clean design and installation for optimum audio and visual performance for your viewing and listening pleasure. Provectus aims for picture perfect and unsurpassed aural output with every installation. Structured Network Solutions Why suffer from loss of speed or connectivity when Provectus can ensure your network is set up to optimum usage? With a rise in the number of smart devices and computers in the modern home, network solutions are a prerequisite in terms of keeping the standard of your Internet connectivity in line with your wish to stream movies efficiently, play video games or simply surf the net. Surf no longer, Provectus can provide you with all of your network solutions. Lighting Control Setting the mood and enhancing aspects of your interior

with bespoke lighting solutions can mean the difference between being inspired by your surroundings or being bored. Our lighting control solutions suit your needs. With our team of experts Provectus offers bespoke lighting control solutions for the home and business. Home automation, access control, the most important efficiency, savings of energy consumption, security, surveillance, electronic systems, are all part of our system design and installation. Our security solutions include CCTV installers and CCTV maintenance together with delivering bespoke solutions using the latest technology. As an integral part of our solutions led approach we always consider the holistic security provision of a location, designing systems that complement each element of security and integrate together to deliver a solution that always exceeds expectation. Access control Send a clear message to staff, customers and would-be intruders that you're serious about security and safety. Provectus Access Control solutions cater for all levels of security from fully monitored access control for a critical infrastructure site, to cost-effective wireless and data-on-card options. Experience keyless freedom with
