Saving money never looked so cool. This is the laid back custom version of Yamaha's wicked YBR125. This learner legal custom just oozes style with it's raked out forks, tons of glitzy chrome, nice comfy seat, tear drop tank and a well useful chrome rear carrier. Best of all, we ride a YBR in our training school and we're getting a real world 110 miles to the gallon in daily use. So. Look great and smile? You're saving.
