

# Custom PC Building and Computer Repairs (Including Phone and Tablet Repairs)

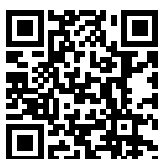

## COMPUTE-LAB

Location **East of England, Essex**  
<https://www.freeadsz.co.uk/x-511228-z>

Who we are? So what do we cater for? We are computer based company based in London providing services such as Custom Built PC's built to order specializing from the biggest brands such as Corsair, EVGA and many more. We put every little detail in our PC's from visual appearance all the way to the things you can't see such as cable management to ensure customer satisfaction. Our computers are provided not only for casual office routine and gaming but also pro audio and video work. We provide other services such as PC/Laptop repair and bulk PC builds. Price We like to be competitive on price. Once you have used our free parts checking service, we will spend at least 2-3 hours trying to find the cheapest parts as possible to reduce the cost as much as we can but we also factor in part quality and reliability so don't be alarmed! We have a fixed charge on building PC's and whether it will take us hours to build a PC our price will always stay the same. You can view our price list here for any other information you require. Confidence Our PC's are put through stress tests to ensure reliability and longevity for years to come. All the parts that come through are thoroughly checked and tested before being placed into your build to ensure high customer satisfaction. All of our PC's are professionally built to suit customer needs so once you receive it, you can simply get up and running with no hassle or problems. Services we offer: Custom PC Builds: We offer a range of custom PC's, whether it be a simple desktop office PC to even a PC in a fish tank! We will cater for all customer needs. PC Repairing: As part of our service to build PC's we also will repair your current PC or even laptop computer. Mobile Repairing: We also repair phones and tablets as part of our repairing scheme. We can repair in all types of phones and even all types of tablets. PC Upgrading: Don't have enough cash for a beastly build? Why not upgrade your current build to make it suit your requirement(s). Just tell us what your requirements are

and we will provide you with a part list and also fit it. System Servicing: As every IT Technician would say, it is important to keep your PC up to date every 6 months away from problems. We offer a service of servicing your PC, covering software and hardware, keeping it clean. Custom PC Builds: In addition we also offer computer consultancy building and repairing custom PC's. We can provide from 1-2 months providing a month! Our Standard Custom PC Build's (Excludes Custom Watercooling loops) Custom builds to suit your needs!
