I am selling my Ozark 3515 Resonator Guitar with a fitted Flatpup Resonator pickup. This guitar sounds and plays just great, it has an easy action, set up at a good height for slide and fingerstyle playing, it has a straight neck and it stays in tune very well. It's never been gigged so it is in excellent condition with little or no fretwear. The pickup is a sixtus flatpup made by sixtus in Vienna, these pickups are made especially for resonator guitars and they sound.
