

Sideboard TV unit (100 GBP)

Location **North, Lancashire**
<https://www.freeadsz.co.uk/x-513555-z>

This is a bespoke piece of furniture, manufactured by Puji based in London. The cupboard on the right hand side does not have a back, as it was used for a desktop computer (please see picture in advert). We have owned this TV unit for just over 7 years. It is hand crafted from solid Indonesian reclaimed teak. The wood is then carefully sanded down by hand and left in it's natural finish. Patch work, block work, natural knots, dings and other wood characteristics can be seen through the grain, increasing the beauty of this piece.

Description from Puji website:

This solid, practical Indah Natural TV unit is a perfect solution for housing a plasma screen television. It uses all available space with no over hangs and its central compartments will house your DVD player, gaming consoles and cable boxes. Its two generous cupboards also offer great storage for your DVD collection and other equipment. Made from solid reclaimed teak and shown here in a natural finish.

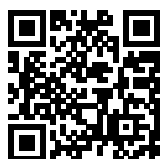

*Cable holes can be drilled in the back of this unit prior to delivery upon request. *Internal opening measures 42m wide x 44cm high

Please see link from Puji website for further details: <https://www.puji.com/indah-natural-tv-unit>
