Been very well looked after by my self a woman owner with only 3 owners. I've had a built in touch screen sat nav/ blue tooth works with all phones. She has had a full Mercedes top tear cover over the time I have had her so that can re a sure you she is in perfect condition. I'm selling her as I've treated my self to a brand new SLC ... also the registration looks like a private plate. I want her to go to a good home please i have dropped the price and won't take no offers now as I can sell her for more in the summer. I just don't like seeing her parked up you can call or text me on 07399404345 073994043...(click to reveal full phone)
