

Hoover SRD4110 Ironspeed Multi-Steam Technology Steam Generator Iron with Steam Brush Attachment Patented multi-steam technology Steam brush for vertical cleaning Ceramic soleplate for easy glide across fabrics Removable tank for easy refill Carry handle for easy transportation

Product Description The Hoover Ironspeed SRD4110 steam generator iron is designed for quick and easy ironing, with better results every time. Ironspeed SRD4110 is a powerful Hoover steam generator iron that uses patented three times better MultiSteam technology to give you effortlessly professional ironing results. Use IronSpeed is fingertip controls to select the right steam programme for the type of garment your ironing and watch how the steam's power, direction and humidity changes. At Hoover we know ironing can be a chore and extremely frustrating if you don't have a good quality iron. Achieving the better results can take up valuable time, which must of us don't have to spare. That is why they have spent the last 5 years developing the Hoover IronSpeed range of pressurised steam generator irons. IronSpeed allows you to carefully remove creases using the least amount of effort, in the quickest possible time, while caring for your clothes and getting a better result every time. Ironspeed SRD4110 has three programmes to give unbeatable control over the steam is power, direction and humidity. Each programme is designed to work with various garment types. When you are ironing heavily creased linen for example, you can take advantage of IronSpeed is powerful steam pressure with the Profound Care programme, which is a full-force vertical steam flow. If however, you are ironing delicate fabrics such as silk or cashmere, you can use the Diffuse Caresse programme for a soft and gentle lateral steam flow. With IronSpeed you can always easily achieve crease-less clothes, regardless of how testing or delicate the material. Ironspeed SRD4110 includes a Freeslide ceramic soleplate, specially designed to relax clothes in all the right

places. Its intelligently positioned steam holes and a large surface area works in tandem with the Hoover steam technology to iron effortlessly, smoothly every time. No scratches, no wear and easy clean. The flexible ceramic soleplate will effortlessly glide across your fabrics, time and time again. No residue, no quickies, no glue time. It's the Hoover SRD4110, steam, extremely powerful steam generated from only 40 grams of steam per minute at 2.5 bar pressure. This means you get the highly pressurised steam, making ironing even difficult creases easy. Box Contains Hoover IronSpeed SRD4110
