

Lexmoto 2016 (175 GBP)

Location **North, South Wirral**
<https://www.freeadsz.co.uk/x-516132-z>

The bike is accident damaged and was bought back from the insurance with the intention of repairing it, due to lack of time and space I've decided to sell it on. Is not registered as a category c and needs a estimated £300 - £350 worth of repairs. Would be a great project for someone who knows what they are doing. It has mot until August 2018, once repaired is ideal as a starter bike. Comes with 2 keys, user manual and logbook/registration documents. The dealership it was originally purchased from have estimated that once repaired it should have a value of between £825 - £875. Please note due to the length of time its been left standing It will not start so will need a van to
