

Masport MSV 3n1 combo, 48.5 cm (19quot) twin blade push mower (350 GBP)

Location **South West, Hampshire**
<https://www.freeadsz.co.uk/x-516415-z>

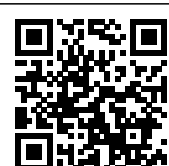

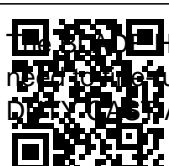

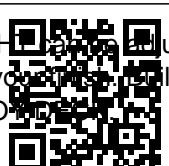

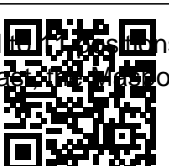

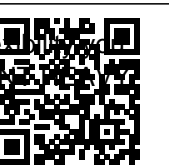

A top-of-the-range, feature-packed machine, giving a choice of three operating modes: COLLECTION, SIDE DISCHARGE & MULCHING.

MULCHING is a great option if you're looking to save time, as there's no need to keep breaking-off to visit the compost-heap. Clippings are instead chopped and returned to the turf, where they rapidly rot and disappear, nourishing the grass as they do so.

When used in side-discharge mode (ideal when mowing long grass), clippings are ejected well clear of the operator's feet via Masport's SMART CHUTE, which has been designed to spread them evenly, without clumping.

Other features include a durable 46-litre HARD SHELL COLLECTOR, with a 'COLLECTOR FULL' indicator; and a WASHPORT, so you can attach a hose and clean the underside of the deck while the engine's running.

The Masport MSV 3n1 combines a hugely powerful 6hp (190cc) Briggs & Stratton XVS60 engine with a generous 48.5 cm CUTTING WIDTH, so it's well equipped to deal quickly and efficiently with the larger lawn. Its TWIN CUT DISC BLADE system and aerodynamically moulded deck ensure superior performance in terms of cutting, collection and mulching; while its DUAL MOWZONE design provides extended blade-coverage, allowing you to mow right up to walls and fences.

Unique extra wide 20cm 'mag' style wheels
Cushioned handle for extra user comfort
11 single lever height settings (10-75mm)
Low cut for a close finish
Double ball bearing wheels for smoother motion
Wash port for easy cleaning

Specifications

Engine Briggs & Stratton XVS60
Chassis Alloy
Width of Cut 48.5cm
Flap type Smartchute
Handle Type MSV Height adjustable Ergo Handle
Blade Twin cut, Disc blade system
Height of Cut 10mm - 75mm
Catcher Type Plastic with full indicator
Catcher Capacity 46 L
Wheel size 8" x 8"
Wheel Bearings Double ball
Weight 37 kg

This is brand new and has only been out of the box to check it and for the photos, it has never even had the oil put in which is still in the container, or had the grass box put together and is complete with the operating manuals.

After a lot of research and reading reviews, I bought one for myself and then one for my father-in-law as

he wanted to replace his ageing mower. He was living in South Devon at the time and regretfully, before I could deliver it to him, he had a series of strokes and passed away.

At the time the price was £449.

If you want to, you are quite welcome to come and see mine in operation as I am quite happy to demonstrate it (weather permitting).

Buyer to collect from Nr Alton, Hants.

Cash on collection, Bank Transfer or cleared cheque.
