

Ford Transit 2007 lwb 140 T350 EF XL (3,900 GBP)

Location

Northern Ireland, County Durham

<https://www.freeadsz.co.uk/x-516438-z>

The van has had 70mph restriction from day one, so hasn't been run at full speeds. 3 keys (2 remote) Alarmed Onboard computer Electric windows New 12 Months MOT Regularly serviced New gear box New brakes New tyres High top Six speed gearbox First aid fitted Reversing sensors Reconditioned prop shaft Achieves over 30mpg Boarded inside No VAT The van belonged to a company which is ceasing trading and will be available at the end of April. Cab in excellent condition, no rips or wear on seats or floor. The engine is fantastic, this is probably due to the fact it's been restricted to 70mph from the start. Available at the end of April with a new 12 months MOT. New tyres and brakes fitted last year. It has onboard computer, radio cassette with controls on the steering, central locking front and rear. Electric front windows, arm rests. Drivers storage compartment and cigarette chargers on the drivers side. Some bad bits: Above the screen theres some rust spots, as this seems to be common with high tops. A few rust spots here and there, it is a 2007. Back doors open and close, however, the back right hinge was reversed into a pole which needs to be pulled by about 5mm. The rear step could do with replacing, we bought it this way. You can contact me via whatsapp on the number by leaving a message. Alternatively, please email me. Side cill under the side slide door needs replacing, which has been paid for and can be done in Sunderland. Time pending, I might get it done next.
