

Seat Leon Cupra 2007 240bhp (5,695 GBP)

Location **Scotland, Dunbartonshire**
<https://www.freeadsz.co.uk/x-516461-z>

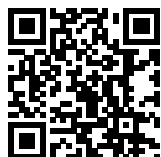

Seat Leon Cupra 1st reg 31/05/2007.
 3 former keepers and MOT 13th Sept with no advisories last year.
 Usual Cupra goodies:- Full electrics, Blue tooth, 6 speed manual.
 Serviced at 8705m, 18867m, 28672m, 45617m, 54943m, 67746m (timing belt / pump also) and 74880m.
 The timing chain and tensioner has also been changed just after I bought it as a preventative measure as these can give trouble.
 Car is in good condition for age and miles.
 One wheel has light curb mark. Tyres all good.
 One fog light is cracked but I have a spare you can have.
 Climate has never worked since I owned and code say's its the pressure switch. its never bothered me.
 I had a helix stage 3 clutch kit fitted last year as i had thought about tuning. I still have the original available.
 New ABS pump fitted 2015.
 New rear caliper / pads 2015. Just had a drop link and front discs. The car has wanted for nothing.
 Always run on 98RON fuel.

I am not in any rush to sell but feel like a change. Happy to give sensible offers consideration.
 Please call evenings as i cant answer at work. Leave a message if I dont answer and i will call you
