We have over 20 years experience in the motor trade and pride ourselves in knowing our vehicles well, our product knowledge is second to none so we know what vehicles suffer with what problems and what to look for on each vehicle. We used to be car dealers for many years so we know what shortcuts are taken, how it works and have enough mechanical knowledge to spot potential problems and make sure your buying a good car instead of a disaster or money pit ! So our cost now could save you hundreds in repair bills in the future, aswell we give you advise on buying your used car and how to deal with dealers and private sellers alike and the things to say and what not to say. We first carry out background checks on the vehicle on your behalf, this includes mileage checks, hpi checks, and previous MOT history for any problems which may be apparent, then arrange to inspect the vehicle with the dealer or private seller and carry out our own 200 point inspection on the vehicle and giving you a full written report on any potential problems or money that may need to be spent in the future, this can even be a haggling point at point of sale or can lead to the dealer getting any work advised done before you buy the car !
