Hello Cardiff,

We are United Lemons, a video production team. We've indulged in the music scene of London and Bristol and now we are moving to Cardiff in June to... to change our lives. We take a leap towards storytelling, making more short films and soon feature length too. But We still love to make music videos and we are now looking for bands in and around Cardiff. All you need is a cutting song and we do the rest.

Contact us at click to contact if you have any question.
