This is for an HP Envy i7 - 17" in used condition laptop. Bought it with a dented corner and never had any influence on the laptop. Also the number 4 key is held by seller tape and never been an issue. this could be replaced for little money but as it has not been an issue for me never did it so bare in mind before you purchase. Look closely at the pictures. Otherwise, I looked after it very well. Memory has been upgraded to 16gb. There is an added hard drive and a large (long life) battery recently purchased. Will come with a used bag to fit it all in. If you do not like the old bag there will be a brand new bag.
