I am a passionate photographer and have over 30 yeras of experience in Event & Wedding photography. I am fully digital - high end Canon equipment for recording events and do my own editing on my trusty Apple MacBook Pro. With my pictures I tell the story of your day as it unfolds - capturing all the emotions, fun and colours. I also design and produce high quality digital albums and slide shows with music of your choice. I can travel anywhere in the UK and around the world to cover assignments. Please call me on my mobile 0044 7877100 0044 78771...(click to reveal full phone number) 907 or drop me a mail - click to
