Great cheap car ideal for a first time driver. Cheap to run and insure. Previously at some point it was written off but then put back on the road as repairs were nothing major. For its age its a nice enough car. A couple of dents and scratches as you would expect for a car of its age. Recently has had oil, filters, spark plugs, air mass sensor, coolant temp sensor all changed. Rear left fog light lens got broken, an easy fix just don't have the time. Open to offers so please don't hesitate to ask., 5+ Owners, Part service history, Next MOT due on 24/11/2017, Air conditioning, CD player, Power steering, Central locking, Manual sunroof, Spare wheel (Space)
