Beautiful Pomsky we bought him at 8 weeks old but due to change of circumstances due to work we can not look after him. He is the most beautiful Pomsky ever with rare black fur. He will come with all paper work and recently been checked by the vets with all flea and tick treatment. He also has his first vaccination. Any more questions please ask. We also have a lot of stuff to give with him e.g. Bed, food bowls and all puppy equipment. Only available to a good home who has time for him. he is also house trained and very.
