My C90 chop. I built this a few years ago. Hardly used, went to a couple of local shows, won a couple of prizes, (best engineered, best scooter). She's done zero miles since getting back from the last MOT, and i've got a Harley on the way and at least a dozen other bikes, so could do with space in the garage. Stomp YX140 Molkt carb Oil cooler Velocity stack intake OO racing high output dc generator Lightweight flywheel OO racing race cdi Slash cut exhaust (very loud) led lights all round hidden wiring (in frame) heavily modified springer type front end with air shock frame extended, raked back and braced all frame powder coated tyres good MOT'd till 25th May 2017 Thanks for looking :) 07460 467 387 07460 467 3...(click to reveal full phone)
