

Bush AC34 Valve Radio (85 GBP)

Location **London, London**  
<https://www.freeadsz.co.uk/x-520699-z>

One of the classic Bush 50's radios, this is one of their best AM models. It is well designed, easy to work on and performs well. The large elliptical speaker does a good job. Cabinet wise this one is good, factory original walnut with a Bush transfer on top. It has an internal frame aerial which works very well on LW and MW and the stronger SW stations. Excellent build and sound quality. A proper wooden vintage radio. Frequency Coverage :- MW / LW / SW  
Antenna - internal frame with sockets.  
Dimensions 20" wide, 16" high, 8"
