This is our Citroen Berlingo petrol/lpg van which we have had since 2009. It has had its timing belt changed every 60k and had petrol and lpg service every 12k. The lpg works fine but is now due for service/filter change. It has had a new clutch last year and a new radiator but it is overheating so we are fairly sure it will need a cylinder head gasket. There is a dent on the passenger side door but doesn't affect door opening or central locking. It has not been driven for around 4 months and MOT is until August. Comes with two keys, although remote central locking does not work on the.
