

# tarot cards reading, pendulum exptises-finding lost pets

Location **London, London**  
<https://www.freeadsz.co.uk/x-520781-z>

Pendulum divination, map dowsing- finding lost/stolen animals/things with a pendulum, map, photo My expertise is used exclusively to estimate where a stolen/lost pet is (300-500m2). I hold 15 years of experience in pendulum expertise as well as Tarot cards. it's the best way to narrow the search options to a minimum. My expertise lasts 1-2 hours and it ends until I find a target area. I've helped hundreds of pet owners rejoice with their loved ones. Your pet can leave resonate energy or traces of their unique life energy at previous locations of where your pet has rested/napped and perhaps left waste material. If your pet is constantly on the move or is being transported by someone, they may leave traces in several locations on the map. Sometimes this can lead to a direction. The results of my expertise I send in jpg a fragment of a map with a circled place. To conduct my expertise I need: photo of a pet/thing address of a place (street, house no) Total costs : £ 100 (on paypal account) contact: click to
