Green tourism is very much mainstream now. It is a quality and environmentally friendly option for those, who are interested in Ukrainian national culture. Green tourism, a form of ecotourism, is low-impact tourism which protects the environment and culture of an area. It is considered that green tourism offers the best of both worlds, protecting the ecology of an area while keeping local schools and businesses thriving. It has become the most popular among young and active part of the population, students, looking for new places and economical resting, as well for older people willing to recover physical strength in a natural way. Currently, green tourism in Ukraine provides tremendous opportunities for recreation. It is an incredible option for the vacation or for the weekend. We will make sure that you have everything necessary for the best pastime. It is captivating and truly unforgettable. A fusion of traditional and modern combined with pleasant service and comfortable suites. For those who are really interested in Ukrainian history, we recommended the original clay houses that are over 100 years old. You'll enjoy the atmosphere and the interior design. Our hostesses will treat you with the most delicious dishes of Ukrainian cuisine. Ukrainian menu and the best national traditions. Guides, tours and wildlife-viewing platforms help tourists experience all that an area has to offer while making little or no impact on the.
