Your cloud campus is the 21st century online training facility, using modern technology to provide its students online interactive training with the luxury of staying at home. Students can stay at home and enjoy live interaction with their teachers and fellow class mates. Who are we? Your cloud campus is an interactive online training facility where students from all over the world can master different subjects sitting at their homes. We provide an extensive network of expert instructors who are teaching worldwide and training students for professional excellence. Our Mission We aim to seek excellence and provide an outstanding learning experience to the students worldwide. Our mission is to provide easy access and affordability to all so everyone can benefit from the teaching portal and master the subjects without paying thousands of dollars to tuition centers.

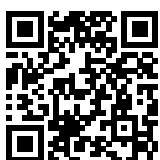

We aim to bridge the gap between professionals and beginners educating the trainees to groom their skills and pursue their careers in fields they love. Live interaction The unique point of YCC is that unlike other e-learning academies the students and teachers interact live, understanding the subject concepts from basic to pro. How can you start? A student needs to have an internet connection and a computer to start up. That's how easy it is!

We provide 24/7 services teaching all across the world in the day and night shifts. You can sign up for a course suiting your timetable without disturbing your daily studies or work routine.

Start a free trial now! Our Prices When we say we are different, we are proving it right away. You can check our highly competitive rates by surveying the available online training and academies. We are offering best environment to get trained by best trainers at highly competitive prices. To be sure, start a one-day free trial now! Assessment After the completion of a specific module, an online exam will be

conducted to assess the student and evaluate the performance.

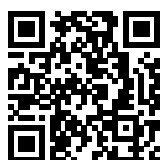

Our range of evaluation certificates are provided to the students. We have YCC Online Academy. Our students from basic to professional housewives can take courses and gain such certificates. They need not make a compromise if you are a school dropout or college student wanting to improve your skills in a subject. We have committed to making the knowledge available at your door step providing everyone the opportunity to get benefit from.
