DIMENSIONS

13.5ft x 79" x 48" / 4.1m x 2.0m x 1.2m

DESCRIPTION

The 13.5ft Bestway Power Steel™ Rectangular Frame Pool Set is from Bestway's renowned range of superior strength, steel-framed above ground pools.

Features:

- Extra strength side walls are made with advanced TriTech material with 3 separate layers
- Heavy-duty rust-resistant metal frames
- Flow control drain valve for easy draining

Easy to set up

The metal frame pool is incredibly easy to construct, requiring no more than a pair of hands. Rigid, oval-shaped steel tube framing help create the shape of the rectangular pool and hold the durable 'metal tech' pool liner in place. No tools are needed, all metal parts clip together.

Easy to drain

Bestway pools have an integrated flow control drain valve for easy draining, which attaches to the garden hose so your pool water can be drained away from your garden – no soggy lawn. I will also include a separate submersible water pump that will significantly speed up the draining of the pool.

Durable

Made with Bestway's trademarked Tri-Tech™ construction, this material features a 3 ply reinforced layering system; a polyester mesh core encased in two layers of heavy gauge PVC, offering the utmost strength and durability.

Built to withstand large water volume weight, harsh ultraviolet rays and chlorine, and all weather elements this is a pool that's going to stand the test of time, giving you seasons and seasons of summer family!
