

I'm selling this fantastic 5 string Fender bass that I no longer require as I'm moving house and will not be using this again. I bought it new, in fact had it shipped in from the USA (I've still got the original shipping box as you can see). I have perhaps used this bass only 3 times in studio environment for particular work. It is in immaculate condition, no scratches, is pristine and almost new. They no longer produce this particular version made in California, so if its the colour and wood you require, you better snap it up quick! I'm looking for £1250 or will consider any reasonable offer. As seen in the photos, it obviously comes with the original Fender hardcase, but I will throw in for free, the wide padded leather strap (cost me £30), a 5m Monster bass cable (£35), and (although it is a bit worn) the guitar stand too! As I travel with my work around the UK I could deliver the bass (within reason to where you live, I won't be traveling up to Aberdeen!), contact me to discuss, otherwise courier service will be at your cost. Similarly, I would prefer payment direct into my bank account if possible, or payment on delivery (if I'm delivering) or on collection, but again we can discuss this. Technical info (for those that want it):

Dimension basses now take their place among Fender's greatest bass designs as the modern pinnacle of pro-level bass style, power, performance and personality. The company that invented electric bass now brings you an elegantly original body style with all-new pickups, electronics and other fine features that let you sculpt and personalise your tone as no Fender bass ever has before. It is a level of bass artistry unparalleled in Fender history, and it is the future of your Fender bass experience. In every way, it's an entirely new Dimension in Fender bass. The five-string American Deluxe Dimension Bass V is a phenomenal instrument, with an ash body in the completely new Dimension shape and featuring a

comfortable asymmetrical neck heel. Its maple neck is crafted with a great-feeling asymmetrical "F" profile, 15 frets, white neckboard, rods, a convertible heel-heel-nut, mass rod adjuster, wenge hand-rubberized finish and five-piece neck plate. The "compound radius" (12"-14") maple fingerboard has 21 frets, a zero fret and chrome nut, while the headstock has a gloss finish and a "V" string retaining ring. The instrument's single sophisticated pickup is simply unimpeachable. A single Dimension Bass humbucking pickup is both powerful and nuanced, and its 18-volt preamp, three-band active EQ (center-pedented treble, mid and bass boost/cut) and master volume deliver remarkable tonal versatility with any degree of muscle and finesse. Other premium features include a three-ply parchment pickguard in white, knurled chrome control knobs, five-saddle Fender Hi-Mass bridge, vintage-style tuners with tapered shafts and a four-over/one-under configuration, locking strap buttons, side-mounted oval output jack and rear-mounted battery compartment. Model Number: 1915600033
 Serial No. US13050100 (Made in California)

Fender American Deluxe
Dimension Bass V HH Active
Maple (Natural) neck)

Body Material: Ash
