Hi-Trail Mountain Bike. 15 speed. 26 inch wheels (Suit: 16 yrs to Adult). Suit Rider Height approx: 6 foot 1 inch to 6 foot 4 inch. Suit Rider Height approx: (185 cm to 193 cm) Suit Rider Age approx: 16 years to Adult. -----

This is an XL size bike (22 inch Frame), which means you have to be at least 6 foot 1 inch tall in your socks to be able to get on this mountain of a bike! So, if there's a 6 foot 4 inch person who is struggling to find a bike that fits.... This is the bike that will fit you! Condition: There are a few scuff marks and scratches to the paintwork and graphics. There is just a small surface rust on some steel parts like screws, and bolts, but nothing too serious to affect the overall performance of the bike.

The paintwork is light grey with a darker grey two tone random flash effect. Fitted with aluminium racing pedals and straps, (which alone cost nearly £18 to buy). I can fit normal moulded black pedals if required. I have fitted brand new Kenda grey hybrid racing tyres. (These cost £20 to buy). I can fit normal black mountain bike tyres if required. However I will not be making wholesale changes to the bike unless the sale of the bike is assured first. Servicing: I have a workshop as in the pictures. My last pic on the advert shows what a bike shop would charge for just a service (without replacing any parts). Bike has had a 15 point service checklist, before being sold:
