

# Renault Traffic Campervan (60 GBP)

Location

Yorkshire and the Humber, West Yorkshire

<https://www.freeadsz.co.uk/x-523738-z>

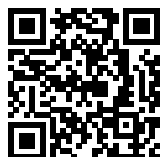

Renault traffic high top campervan finished to a good standard. It comes fitted with a rock n roll bed in a red and blue hardwearing covering over almost new memory foam cushions and two lap-diagonal seat belts (5 forward facing seat belts in total). The standard Renault front three seats with an adjustable armrest on the driver's seat. It has a Smev style sink/ hob fitted which gives you running cold water and two gas rings. The furniture is made from the industry designed lightweight ply and is finished in light wood effect Formica (type) work top. It has a standard 2-way electric Weaco fridge fitted. It is fitted with 12v LED strip lights. It has a clothing locker in the rear and an over sink top locker and over cab huge locker which gives a lot of storage space. Under the sink unit there is a locker with tambour door which houses the waste water bottle and can hold the basic kitchen utensils. Through the rear doors there are another two lockers, a large one underneath the bed and locker which houses the gas bottle and fresh water bottle with a top loaded box locker of a generous size; loads of room for boots etc. under the bed. Over the bed there is a small child's bunk bed (light weight only)- canvas slung between two alloy poles across the width of the van, we've used this as extra storage for wind breaks and folding camp chairs though. There is a 240v electric socket located in the bulkhead at the front of the rear cupboard together with a USB socket. It has a vinyl floor fitted (some use related markings etc.) for ease of cleaning. The van itself is in white and sits on standard Renault wheels for economy. It is in very good condition but does have some minor blemishes. The van drives really very well, economic with its six speed gearbox and is effortless to drive and manoeuvre- helped by the two electrically operated rear view mirrors and front windows. MoT due in February 2018 and two remote central locking keys together with V5c in my name. New Radio, CD player with blue tooth connectivity fitted instead of the standard Renault unit but

the fingertip control on the right-hand steering column stalk is not connected to it. I have probably left lots of things out, but I am not a professional, so I am not sure if I have missed anything. I am not a professional, so I am not sure if I have missed anything. I am not a professional, so I am not sure if I have missed anything.
