Transit Address is a newly launched app for International Shopping.

Transit Address is an Android App which gives end to end solution for International shoppers. Transit Address is currently giving their service in USA, UK and UAE (Dubai). Buyers who wish to buy from USA, UK or UAE (Dubai) can use the service to ship their product to India.

How it is useful?

As most of the products we get in International market much cheaper than India. One can get much more quality products from international market than India. But, most of the marketplaces from USA, UK and UAE do not give delivery to India. Some of them do give but for very few products this facility is available. If they give delivery to India they charge very high shipping and delivery period is very long. Transit Address offers you very fast shipping and very low shipping Charges. Transit Address app is a one of the trusted and committed association as this service is launched by Unique Air Express the renowned name in International courier and logistics since 15 Years.

How it Works?

Download app – Register yourself – Get Transit Address of respective country as your delivery address – Purchase the product you wish to from the market place of that country- Add Transit Address as your local delivery address at the time of check out- drop a shipping request to app- Transit Address will deliver that product to your doorstep in India with custom clearance.

“SO, go and grab this opportunity and shop internationally, rest is handled by Transit Address.”
