Esmono 4m x 2.85m x 2m Sound Isolation Booth with ventilation system, Double glazed control room window, and xlr snake.

This room costs almost £10,000 new!!!!

Ideal for professional or home use, for recording studios, band rehearsal rooms, broadcast, voice overs, drum rooms, vocal booths, project studios etc.

Would you like to stop your music from annoying the neighbours. Or the person in the next room. Do you need to keep outside noise from affecting your recordings at the crucial moment. Are you also looking for a cost- effective solution, one that looks good, and that you can take with you if you move on elsewhere.

This isolation booth/sound studio has a single wall about 50mm thick, giving it a soundproofing value between 30 and 35db.

Listing includes booth, and I'm throwing in xlr snake and chipboard flooring (now Red not blue) , (does not include the black rubber shown in photo or any other items in photos) .
