We are selling our fish tank purely because we have had to move it out of our front room to decorate and it just doesn't fit back in so we are going to downsize.

Currently there are a handful of fish in there which include 2x silver sharks, large Plec, catfish, neons and a few more.

We will sell as is with the ornaments etc... We have recently put a new pump in it worth over £60 and this is reflected in asking price however we are happy to keep this pump if it isn't required and reduce price. The tank is heavy and will need manpower to move.

It sits nicely on a black wooden unit which does have a cut out of the back where the wires used to sit, when against the wall this isn't visible.

Up until recently we had rope light inside the lid but have taken it out at the light broke and just haven't replaced.

2 entry points in the lid for easy access.

£350 ovno. Feel free to message as open to SENSIBLE offers.
