I've got three of these Ecomax compost bins that were bought but never used. They've been left in the garden and faded over time but still usable and with lids. One still has it's door, two are missing but you could easily block the bottom up with anything to hand. Shame to take them to the tip, so free to collectors. Take one, two or all three, whatever is left by the time you get here. I am on Fullers Hill,.
