Hello, I like retouching photos, especially portraits and weddings pictures. About portraits I can do things like:

- blemishes removing
- wrinkles smoothing
- skin lightening
- teeth whitening
- red eye effect removing
- eyes, lips, nose reshaping

etc.. I don"t destroy structure of skin. Face looks still natural. About wedding pictures I work with these aspects:

- tonal levels
- correct exposure
- contrast
- white balance
- retouch of second plan and background
- retouch of person
- photomontage
- blur and sharpening
- straightening
- cropping

Price: 1£ for 1 picture.
