

Relief for Painful, Swollen Legs using Manual Lymph Drainage.

Location **South West, Devon**
<https://www.freeadsz.co.uk/x-525342-z>

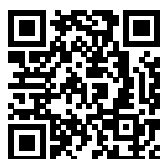

This information is specific to anyone who suffers from Painful Swollen Legs. Do you suffer from painful legs? Is the hot weather playing havoc with your legs? Does the summer heat cause your legs to itch like mad and swell like crazy? Do your legs burn with pain by the evening? Does your skin itch, or irritate and need a good scratch? Do your legs feel restless and need to move (Restless Leg Syndrome)? Do you feel like you have an unsettling feeling like something crawling under your skin? Is your skin hard beneath the surface, like tough tissue, or feeling board-like? Do you spend long periods of time at a computer or office desk? Do you spend long hours on your feet? If you answer YES to any of those questions, you may benefit from a course of Manual Lymph Drainage. Essentially, I am putting up this notice because some of the patients that have recovered fully, or are in remission, or only need palliative care now, means I have space to accept new patients for this treatment. If you want to read more, please visit: <https://goo.gl/PRdbh3> If what you read hear resonates with you, please don't suffer much longer. Understand that fibrosis under the skin, can be dangerous to health, and the longer it goes on, the harder it is to treat. Please start your treatment early and make your appointment soon. Thank.
