Learn at your own pace in your own space

I give personal computer lessons allowing you to learn at your own pace without the pressure of having to keep up with a class. You're never too old to learn. Several of my pupils are in their mid 70's and are enjoying their new found skills. If you would like to learn how to use your computer or you simply brush up on your existing computer skills, increase your Microsoft office skills (Word, mailmerge, Excel, formulas etc), need help setting up a scanner/printer, getting images from your digital camera to your computer, have specific questions about things you'd like to know how to do on your computer then I can help. Do you find that you are often asking someone else for help to perform basic tasks on the computer and when they do help you have no idea what they just did or how they did it?. Help is at hand so there's no need to get left behind. I offer private One-to-One computer lessons so that you can learn at your own pace on your own equipment in the comfort of your own home. Topics covered include computer basics, creating and managing files & folders, windows explorer, skype, email, facebook, webcam, printing, scanning, importing pictures from your camera, simple image editing, using a memory stick, effective internet browsing, online shopping etc. or your lesson can be tailored to your specific requirements. I am based in Peterborough and teach in homes within a 25 mile radius including Wisbech, March, Whittlesey, the Ramseys etc. For more information or to book a lesson please contact me on 07985 690133 07985 6901...(click to reveal full phone)
