Hi there! I'm selling this beautiful bike! Bought in 2011 was an early release of the 2012 model Giant Avail 2 Women's Small road bike. Great for a beginner without having to pay the huge price for a new one!! It was bought by my mother in 2011 but She used it for her commute to work in the summer of that year but never used it after that! knowing our British summer probably didn't last too long! Anyway i found it packed up in the loft and have convinced her to sell it. The tires may need pumping up but it is good to go otherwise! It comes in a soft case that houses the 2 wheels and has padding on the inside so the bike doesn't do much moving in there. Comes with a Cateye Velo 8! Worth £20/40 Spare Tube for wheel. Set of allen keys Bike lock Bike pump (Attached to bike) Includes Proof of payment. RRP £799 Owners manual Pick up in Tunbridge Wells, Kent. Please find attached pictures of the bike! May accept.
