This is however a strictly limited offer and the contracts are going out fast so if you're interested, please let us know so we can move things forward. Here is a brief overview of the free use of printer promotion from Hilton Hall MPS: HHMPS currently running a promotion by referral whereby they reduce your current print spend by a minimum of 30% without incurring any capital expenditure. It can be greater than this depending on the terms from your current supplier. We are on a drive to increase the market share of the print market. Specifically, we are determined to recover loss of consumable supplies, therefore in addition to a massive loss of earnings the ongoing reliability of devices is being affected by clients using cheaper compatible supplies, creating potential brand reputation damage. HHMPS has opted to utilise the technology of Hewlett Packard machines with this offer. The offer includes the supply of hardware, consumables and on-site installation at an agreed cost per print. This cost per print start from 0.38p Mono and 2.67p Full Colour per page. Nominal £8 monthly charge would apply if having less than five printers. PLEASE CLICK ON THIS LINK - simukoko.myfreesites.net or www.hhmps.co.uk HP only promote this offer via partners rather than directly, hence the email from me. Thereafter, the contract would be with HP direct. To summarise: Free Latest State of the Art Hardware - example – HP P57750dw/47750
