Gorgeous litter of 10 Toy Labradoodles

6 Boys 4 Girls Excuse the ones behind in the first pic they have just had a bubble bath! 1 boy 1 girl are twins!!!????

All thriving, such gorgeous pups brought up in our family home. We have 3 children so they are used to being handled and also have another dog so used to her being around as well. Millie (mum) is our family pet, this is her second and last litter. She is a fabulous mum and is looking after her babies well. Father is a Toy Poodle KC Reg and we have the papers to show. Please only get in touch if you intend to buy. We arrange meetings with our previous litter and enjoy seeing on Facebook how they have grown and how they are doing. Trips to the beach as a huge doggy family are a must! It's lovely to see them all back together again. Yes pups are hypoallergenic so any children with allergies are ok around them and also they do not malt. Any questions please feel free to message me. Photo above is of 5/6 week old puppy from the first litter. Same mother and father. More photos of pups to follow this week All pups will come with:

Micro Chip First set of injections Wormed
