Anderson Group is a global provider of support services and employment management solutions to the recruitment and contracting sector and wider business community. With many years of working with and advising contractors and recruiters, few companies are better placed than Anderson to manage both diverse contractor arrangements as well as comprehensive back office support services to agencies. Our experience, capabilities, and scale mean that we deliver the best value to our clients and contractors, clients come to us because we bring together the right people with the right skills to streamline their services and improve their profitability. Appreciating that not all workers and agencies operate within a typical 9-5 day, our offices in the UK, Philippines, India and Dubai are on hand to provide support as and when needed. We were founded in 2005 by employment industry and accountancy experts who shared a vision; to be a leading voice for the rights of recruiters and contractors. Over the years we have grown our organization and now support hundreds of recruitment agencies and thousands of temporary and contract workers each.
