I have been teaching students for 30+ years (Universities, colleges & privately) and I am using all my energy, enthusiasm & subject knowledge to motivate & challenge students by creating a positive learning environment.

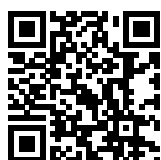

I am teaching all the aspects of the language: speaking/listening, reading/writing.  
 My teaching is grammar based as without the knowledge of grammar it is impossible to make up correct sentences. I am using authentic materials: there are a lot of activities resulting in improving speaking skills.

There is always a good rapport with the students. The students get all the help they need. My lessons are always well structured, lively and meet students's satisfaction.
