Sky+HD DRX895 1.5TB satellite receiver (with a massive 1TB for personal use) complete with power lead and Sky remote control. In as-new condition and full working order. Full range of rear sockets, including Scart, HDMI, Ariel in, RF out 1 & 2, Ethernet, Sata, USB, RS-232, Audio/Video RCA, Co-axial and optical digital audio out, and of course Dish inputs 1 & 2.

These receivers were Sky's premium range before the introduction of the new 'Q' boxes. However, Sky's policy is now to only 'loan' the Q boxes to customers for as long as they are subscribing. They will never be owned by the customer, and must be returned if not subscribing.

The item is in perfect working order, and comes in original box with fully functioning remote control and power.
