Since its inception Yopalates has steadily gained popularity and an International reputation as being a method which makes the disciplines of Yoga and Pilates easily available to anyone. Yoga can enhance strength, stamina, flexibility, balance and mental clarity. Through developing a conscious awareness of the body, mind, and breathe. It has the ability to be deeply relaxing and health enhancing.

Pilates was founded by the late German born Joseph Pilates in the 1920s. It is known globally as a collection of muscular-skeletal exercises that help sporting activities, assist in injury rehabilitation and supports those with back problems through re-educating the body's postural muscles to create a very

safe and strong foundation for movement. Pilates is an excellent way to improve your strength and tone. It is the only exercise work that can be done in a chair, making it suitable for those with limited mobility and those who are recovering from injury. Pilates is an excellent way to improve your posture, help to relieve stress and improve your breathing. In addition, it is a great way to increase your energy, blood circulation, diabetes, high cholesterol, high blood pressure and
