this as new touchscreen lap top bought from pc world see enclosed receipt as still under guarantee i paid £1399, i have hardly used it at all, so in as new condition with both mint condition boxes and contents stunning high resolution display, edge to edge pictures and videos, why selling? simple! i have purchased the 15" version, just recently, you won't get a better deal than this one, so save yourself a lot of money, so light and thin and better than a macbook? well ill leave that up to you to.
